VEHICLE EMISSION REPAIR INDEX

July 1, 2007 - June 30, 2008

VEHICLE EMISSION REPAIR INDEX

July 1, 2007 - June 30, 2008

For additional information, call the Clean Air Car Check Customer Service Hotline: 1-888-240-1684 (toll-free) 1-219-661-8269 (local) or visit our website: www.cleanaircarcheck.com

This report is compiled from data collected July 1, 2007, through June 30, 2008, and is published twice a year based on data from the 12 previous months. It is an informational tool for motorists to use when selecting a repair facility to diagnose and repair a vehicle that has failed the emissions test. The Clean Air Carcheck Program does not promote or endorse any of the repair facilities listed on this document. The VERI is published to assist motorists in making informed choices about the repair of their vehicles.

The chart lists all of the Indiana Certified Emissions Repair Facilities and the facilities in the area that have completed 25 or more emissions-related repairs during the designated time frame.

An Indiana Certified Emission Repair Facility employs at least one technician who has successfully completed enhanced emissions diagnostic courses. This technician must also meet continuing education requirements of L1 and A8 certification by the National Institute for Automotive Service Excellence (ASE). In addition the repair facility must have the required equipment on-site to diagnose your vehicle.

It is important to remember that it is your right and responsibility as a consumer to evaluate this list, as well as other resources, and choose a repair facility that suits your needs. The only time you are required to use an Indiana Certified Emission Repair Facility is if you anticipate applying for a minimum expenditure waiver for a 1981 or newer model year vehicle. A waiver can be issued, when the vehicle meets certain criteria, as a temporary extension that gives the vehicle owner extra time to make additional repairs before the next test cycle. Only one waiver, valid for one test cycle, can be issued for the lifetime of the vehicle.

The accuracy of this chart depends on you. Please be sure the repair facility that you select completes and signs the Repair Data Form located on the back of your Vehicle Inspection Report.

Be prepared to ask these questions before selecting a repair shop:

- > How much experience do you have with emissions-related repairs?
- > What is the charge to diagnose my vehicle and what services does that include?
- > What repairs will make the most significant improvements to my emissions test results?
- > If my vehicle fails the retest and I have made the recommended repairs will you review my vehicle again at no additional charge?
- > Will you be taking my vehicle to the emissions testing site for the retest? If so, is there an extra fee for this service?
